

Peer Review Journals for FELASA Publications

FELASA publishes in peer review journals with which a special relationship has been established.

- FELASA has an official journal: Laboratory Animals.

The international journal of laboratory animal science, technology, welfare and medicine, Laboratory Animals publishes peer-reviewed original papers and reviews on all aspects of the care and use of animals in biomedical research. The journal promotes improvements in the welfare or well-being of the animals used, it particularly focuses on research that reduces the number of animals used or which replaces animal models with in vitro alternatives. This journal is a member of the Committee on Publication Ethics (COPE).

- FELASA has affiliations with two other journals:

. Biology

Biology (ISSN 2079-7737) is an international, peer-reviewed, quick-refereeing open access journal of Biological Science published by MDPI online. It publishes reviews, research papers and communications in all areas of biology and at the interface of related disciplines. *Biology* is covered by leading indexing services, including the Science Citation Index Expanded (Web of Science), Scopus, PubMed and other relevant databases.

. Animals

animals

Animals (ISSN 2076-2615) is an international open access journal devoted entirely to animal science and animal welfare, published monthly online by MDPI. It is indexed in SCIE with the latest Impact Factor of 2.752. It ranks 13/63 (Q1) in 'Agriculture, Dairy & Animal Science' and 19/146 (Q1) in 'Veterinary Sciences'. *Animals* strives for supporting original research that provides a broad and better understanding of how humans and animals can coexist in a sustainable and healthy manner.

- FELASA publishes in AALAS journals, an association with which FELASA has a liaison body and joint working groups.

. Comparative Medicine

Comparative Medicine (CM), an international journal of comparative and experimental medicine, is the leading English-language publication in the field and is ranked by the Science Citation Index in the upper third of all scientific journals. The mission of CM is to disseminate high-quality, peer-reviewed information that expands biomedical knowledge and promotes human and animal health through the study of laboratory animal disease, animal models of disease, and basic biologic mechanisms related to disease in people and animals.

. JAALAS

The Journal of the American Association for Laboratory Animal Science (JAALAS) serves as an official communication vehicle for the American Association for Laboratory Animal Science (AALAS). The journal includes a section of refereed articles and a section of AALAS association news. All signed articles, including refereed articles and book reviews, editorials, committee reports, and news and commentary, reflect the individual views of the authors and are not official views of AALAS. The mission of the refereed section of the journal is to disseminate high-quality, peer-reviewed information on animal biology, technology, facility operations, management, and compliance as relevant to the AALAS membership. JAALAS

accepts research reports (data-based) or scholarly reports (literature-based), with the caveat that all articles, including solicited manuscripts, must include appropriate references and must undergo peer review.
